'Penderfynais ddychwelyd yn ôl i Chweched y Strade yn bennaf oherwydd y berthynas dda roedd gen i gyda'r athrawon. Maen nhw o hyd yn barod i wrando a helpu ac maent yn adnabod fy nghryfderau a gwendidau unigryw. Yn ogystal â hyn, dychwelais yn ôl i'r chweched gan roedd y cyfle i barhau Daearyddiaeth trwy gyfrwng y Gymraeg yn bwysig iawn i mi. Hefyd rydw i wedi cael nifer o gyfleoedd i gynrychioli'r ysgol yn nhimau chwaraeon y chweched ac wedi profi tipyn o lwyddiant. Mae'r amgylchedd yn Chweched y Strade yn un croesawgar a phositif iawn ac mae ganddo'r cyfleusterau a staff gorau a phosib fydd yn sicrhau eich bod yn mynnu ac yn cyrraedd eich potensial'

I decided to return to the Sixth Form at Strade primarily owing to the positive relationship I had with the teachers, who are always ready to help and listen to any problems. Also, the teachers know me well from my time spent as a younger pupil in the school and, therefore, they understand my unique strengths and weaknesses. Another important factor that persuaded me to return to the Sixth Form was the prospect of continuing my Geography A level through the medium of Welsh. In addition, I've had many opportunities to represent the school as a member of various sports teams in the Sixth Form which have been considerably successful. The Sixth Form at Strade features a warm, friendly and positive environment. It also provides the essential facilities along with excellent staff to help ensure that students flourish and reach their true potential."

Parhau yn Ysgol y Strade oedd yr unig ddewis i mi - ni ystyriais unrhyw opsiwn arall â dweud y gwir. I mi, roedd parhau gydag addysg trwy gyfrwng y Gymraeg yn hanfodol, ac fe alluogodd y Strade i mi wneud hyn. Penderfynais ar y pynciau roeddwn yn eu mwynhau ond y prif ysgogiad oedd y berthynas gyda'r athrawon pwnc. Datblygais berthynas weithgar iawn gyda phob un ohonynt, ac roedd eu parodrwydd i'm helpu i wireddu fy mreuddwydion addysgiadol a chyrraedd fy mhotensial yn fy arholiadau TGAU ac Uwch Gyfrannol yn allweddol. Wrth gwrs, mae'r elfen gymdeithasol yn bwysig iawn. Ceir nifer o gyfleoedd i fwynhau bywyd unigryw'r Chweched Dosbarth. Bydd addysg a bywyd cyffredinol Chweched y Strade yn eich cyfeirio at lwyddiant yn eich gyrfa yn y dyfodol.

"Continuing at Ysgol y Strade was the only choice - in fact, I did not consider any other option. For me, continuing my education through the medium of Welsh was essential, and Strade allowed me to do this. I decided to continue studying the subjects I enjoyed but the main incentive was my excellent relationship with the teachers. I developed an effective working relationship with each of them, and their willingness to help me realise my educational dreams and fulfil my potential in my GCSE and AS exams was a crucial factor. Of course, the social aspect is very important and there are numerous opportunities to enjoy the unique life of Sixth Form. Education and life in general in Strade's Sixth Form will direct you towards success in your future career."

This course prepares students to work 'professionally' within the construction industry or for further study in the field. Due to the shortage of professional workers within the UK construction industry, this course will provide ample opportunities for a career pathway. This qualification is equivalent to one A Level and is completed within two years. This course could lead to jobs as a Site Manager, Project Manager, Building Surveyor, Architects Technician, Civil Engineer, Sound, Light or Heat Loss Surveyor.

Mathemateg

Mathematics

Mae'r cwrs yma yn adeiladu ar y sgiliau, gwybodaeth a'r ddealltwriaeth a oedd yn hanfodol ar gyfer Haen Uwch Mathemateg TGAU a Haen Uwch Mathemateg-Rhifedd TGAU. Mae'r cyrsiau i gyd yn dibynnu ar safon dda o ymdrin ag Algebra a welwyd yn yr Haen Uwch.

Mae'r fanyleb yn annog dysgwyr i ddatblygu eu gallu i ymresymu'n rhesymegol, adnabod rhesymu anghywir, i gyffredinol, a llunio profion mathemategol. Bydd yn rhaid iddynt ddatrys problemau anstrwythuredig anoddach gan gysylltu gwahanol feysydd mathemategol. Mae disgwyl i'r dysgwyr gymryd mwy a mwy o gyfrifoldeb am eu haddysg eu hunain ac i werthuso'u datblygiad mathemategol eu hunain.

Ym mlwyddyn 12, bydd y myfyrwyr yn astudio dwy uned ar gyfer y cymhwyster UG, sef UG Uned 1 (Mathemateg Bur A) ac UG Uned 2 (Mathemateg Gymhwysol A).

Er mwyn ennill y cymhwyster Safon Uwch llawn, bydd yn rhaid i Flwyddyn 13 astudio 2 uned ychwanegol i'r rheiny a nodir uchod, sef U2 Uned 3 (Mathemateg Bur B), a U2 Uned 4 (Mathemateg Gymhwysol B).

Gellir defnyddio cyfrifiannell ar gyfer pob un arholiad

This course builds upon the skills, knowledge and understanding required at Higher Tier GCSE Mathematics and Higher Tier GCSE Mathematics-Numeracy. All the courses assume a sound basis of algebraic manipulation that were met in the Higher Tier.

The specification encourages learners to develop their ability to reason logically, recognise incorrect reasoning, to generalise, and to construct mathematical proofs. They will have to solve more challenging unstructured problems by linking different mathematical fields. The learners are expected to take more and more responsibility for their own education and to evaluate their own mathematical development.

In year 12, the students will study two units for the AS qualification, namely AS Unit 1 (Pure Mathematics A) and AS Unit 2 (Applied Mathematics A).

In order to gain the full A Level qualification, Year 13 will have to study 2 additional units to those noted above, namely A2 Unit 3 (Pure Mathematics B), and A2 Unit 4 (Applied Mathematics B).

A calculator may be used in every examination.
